

# Is Chinese tea a cheap product?

In Europe, the price of Chinese tea is not expensive.

So some people mistakenly think that Chinese tea is not good.

Is there any good tea in China?

Of course.

But good tea is usually in China, with good quality and high price. Some tea can approach the price of gold.

Chinese in Europe may also have good tea.

But the tea that China sells to Europe is all ordinary tea, and good tea is rare.

On the one hand, good tea produces very little and exports less.

On the other hand, the Chinese believe that foreigners who add milk and sugar to tea at will will not really taste, and good tea will be wasted.
