

# real China: chinese gods

Chinese God is their ancestors, their love will die ancestors set into gods. But they are not totally dependent on the gods. In my opinion, the Chinese and the gods, there is a trading relationship, if their desire is not reached, then they will no longer believe in god. This is because in the history of the Chinese people have experienced more difficulties. They have always been pragmatic, not to pay too much for the false things, so that they can continue to this day.
